PREFACE

THIS is the eighth sale specialising in Foreign coins which we have prepared in the last few years. The main emphasis on this occasion is on South America and its related European countries, Spain and Portugal. There are many rare dates amongst the coins and the general condition is extremely high, the pieces having been purchased over the years with care and discrimination. The small but choice Polish collection comes from America and was formed, in the main, over 50 years ago, the few modern silver coins being the only recent additions.

The number of choice Foreign gold coins contains many large pieces and has a fine selection of Vatican pieces. The Sale concludes with a selection of silver tokens, paper money, and a selection of books at one time forming part of the House of Commons Library, together with some 17th Century tokens.

PRICED CATALOGUES

Coins

AFTER each sale these catalogues are issued with the prices realised printed in the margin opposite each lot, thus giving at a glance a reliable guide to values.
